

Epic

As a user,
I want to use the nucleic acid test kit after the results automatically uploaded to the network,
so that ensure my safety.

Break down story 1

As a user,
I want to use the nucleic acid test kit and upload the results directly to the Internet
so that I can save my time and reduce the frequency of contact with others.

Break down story 2

As a user,
I want to be isolated and treated or properly handled immediately after I test positive for nucleic acid,
so that ensure the safety of my family and friends.
